JUNIOR FULL STACK DEVELOPER

I am a Junior Full Stack Developer, looking for a role where I can consolidate and extend my programming knowledge and skills. After graduating from University in information systems and technologies in 2012 I started to work as a business process manager in an insurance company. In 2022 I finished my work and started to learn development.

I am interested in writing well-crafted code and satisfying my hunger for continuous learning. My commitment to a career in programming stems from working alongside web teams in the workplace in my previous role.

Tech Skills:

- Strong knowledge of vanilla Javascript
- Good understanding of HTML5 and CSS3
- React
- Node.js, Express
- MongoDB
- JSON
- Understanding of OOP concepts

Languages:

- Native speaker of Ukrainian
- Good English speaking
- Good Russian speaking
